

ACRYLIC BEADS /

Performance provider

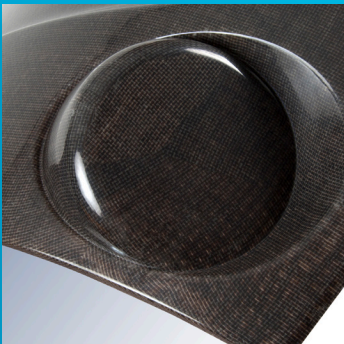

Altuglas® beads, the right candidate for your applications and developments

Altuglas International is a worldwide integrated player in the PMMA market. Already recognized as a reliable and innovative partner of PMMA resins, Altuglas International completes its offer with a significant **PMMA beads* portfolio**. Based on 60 years experience and thanks to their key performance properties, Altuglas® beads are suitable in many different markets as additives or binders.

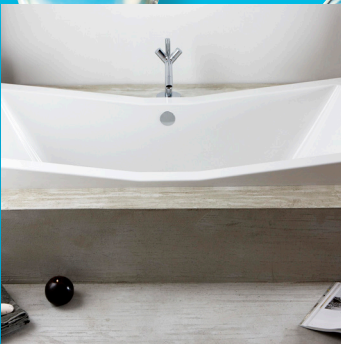

Paints & Coatings

Compatible with **waterborne or solvent-borne formulations**, our acrylic beads will strengthen our formulations.

Composites

Highly suitable for **UP Resins or compounds in SMC/BMC**, Altuglas® beads will enhance your composite parts.

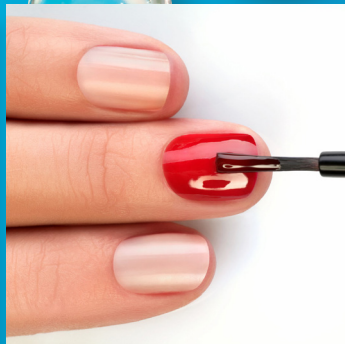

Building & Construction

Essential for your **cast polymers** composition, Altuglas® beads will improve your **solid surface** properties.

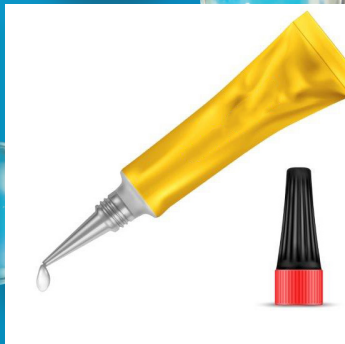

Polymers

Ideal to customize your polymer applications, the use of Altuglas® beads as **additives** allows new **effect creation**.

Cosmetics

Promoted as a **key ingredient in your formulations**, Altuglas beads will offer you endless possibilities.

Adhesives

Recommended in **cyanoacrylate adhesives**, Altuglas® beads offer you the right solution to manage your formulations.

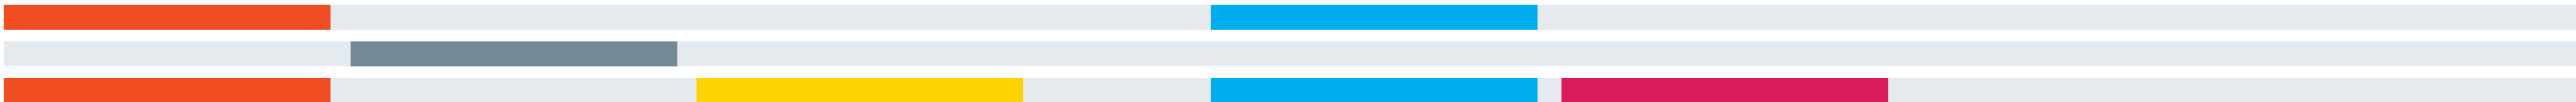

Industry

Polyvalent thanks to various compositions, our beads are suitable for **porous material and glass interleaving applications**.
